

CAMERA DI COMMERCIO
VENEZIA ROVIGO

The **Chamber of Commerce of Venice Rovigo** is pleased to present **Venicexport**, the web portal of the importers and exporters of the provinces of Venice and Rovigo. The portal can be consulted in Italian and in English at the address www.venicexport.com.

Venicexport is managed and promoted by the Foreign Certification Office of the Chamber of Commerce of Venice Rovigo.

Venicexport is an **important showcase for the companies** of the provinces of Venice and Rovigo that operate on the International market, and particularly the small and medium enterprises, which are core of the provincial economy.

The aim is to create new business relationships with foreign partners, also in cooperation with the institutional bodies that create opportunities and promotional events on target markets.

These are the opportunities offered to companies registered in the portal:

- **Direct contact:** foreign operators visiting Venicexport can contact directly the companies by using the links to the websites and the e-mails;
- **Creation of lists of companies:** it is possible to download from the portal lists of companies by product sector or other available search criteria;

In the portal Venicexport it is also available:

- **data on the economy**, on typical products, on foreign trade and on the infrastructures of the provinces of Venice and Rovigo
- **contacts of local organizations** promoting internationalization.

Furthermore, the promotion of the companies abroad is supported by the **Nuovo Centro Estero Veneto (New Foreign Trade Center of Veneto)**, the operational arm of the Chamber of Commerce of Venice Rovigo and the Chamber of Commerce the Treviso Belluno.

The New Foreign Trade Center of Veneto **supports the economic and productive system of the region**, providing services for the **two Chambers of Commerce and the Veneto Regional Government**, which signed a three-year Program Agreement for the economic promotion and internationalization of Veneto companies.

The aim of the New Foreign Trade Center, inaugurated on November 6th, 2018, is to become a **reference point for the promotion of the Veneto companies in the foreign markets**, in particular the most dynamic and strategic, so that the region can continue to be one of the most industrialized regions of Europe.

The New Foreign Trade Center will represent the Veneto region (and in particular the provinces represented by the associated Chambers of Commerce) in the main trade fairs, organize business meeting abroad and in Veneto, and provide export training for the companies.
